Level	Event ID	Category	Description
Information	10	5	attempts.
Information	10	5	User $Name log on unsuccessful due to invalid password.
Information	10	5	User $Name unsuccessful logon attempt from %s(%s). },
Information	10	5	User $Name logged in.
Information	10	5	User $Name logged in with following roles: %s.
Information	10	5	User $Name logged off.
Information	10	5	User $Name logged off due to session time out.
Information	10	5	User $Name adds account $Name successfully.
Information	10	5	User $Name adds account $Name unsuccessfully.
Information	10	5	User $Name removes account $Name successfully.
Information	10	5	User $Name removes account $Name unsuccessfully.
Information	11003	5	Account modified by user ($Name).\nAccount: %s\nFull name: %s\nEmail address: %s\nRole: %s\nStatus: %s\nPassword: <changed>
Information	10	5	%s\nEmail address: %s\nRole: %s\nStatus: %s\nPassword: <not changed>
Information	10	5	User $Name modifies account $Name unsuccessfully.
Information	10	5	User $Name adds role $RoleName successfully.
Information	10	5	User $Name adds role $RoleName unsuccessfully.
Information	10	5	User $Name removes role $RoleName successfully.
Information	10	5	User $Name removes role $RoleName unsuccessfully.
Information	10	5	User $Name modifies role $RoleName successfully.
Information	10	5	User $Name modifies role $RoleName unsuccessfully.
Information	10	5	User $Name modifies password for account $Name.
Information	10	5	User $Name imports role $RoleName successfully.
Information	10	5	User $Name successfully reset the Virus/Malware outbreak status.
Information	10	5	User $Name successfully reset the Spyware/Grayware outbreak status.
Information	10	5	User $Name successfully reset the Firewall Violation outbreak status.
Information	10	5	User $Name successfully started the assessment of compliance report.
Information	10	5	User $Name successfully notified Security Agents to restart itself.
Information	10	5	User $Name successfully notified Security Agents to perform update.
Information	10	5	scan.
Information	10	5	Agents.
Information	10	5	compliance report.
Information	10	5	User $Name successfully started client installation.
Information	10	5	management.
Information	10	5	management.
Information	10	5	settings.
Information	10	5	User $Name successfully save the Active Directory/IP Address Scope settings started the assessment of outside server management.
Information	10	5	settings.
Information	10	5	User $Name successfully cancel the notification to clients.
Information	10	5	User $Name successfully modify the server scheduled update settings.
Information	10	5	User $Name successfully do a server manual update.
Information	10	5	User $Name successfully modify the server update source settings.

Information	10	5	User $Name successfully modify the client auto update settings.
Information	10	5	User $Name successfully notify clients to perform update.
Information	10	5	User $Name successfully notify selected clients to perform update.
Information	10	5	settings.
Information	10	5	User $Name successfully add the update source.
Information	10	5	User $Name successfully edit the update source.
Information	10	5	User $Name successfully delete the update source.
Information	10	5	server and clients.
Information	10	5	clients.
Information	10	5	clients.
Information	10	5	User $Name successfully rollback the virus pattern of clients.
Information	10	5	and clients.
Information	10	5	clients.
Information	10	5	and clients.
Information	10	5	clients.
Information	10	5	User $Name successfully saved the Active Directory scope.
Information	10	5	Directory
Information	10	5	User $Name successfully input a new activation code.
Information	10	5	User $Name successfully update license.
Information	10	5	User $Name successfully modify the setting of firewall for clients.
Information	10	5	User $Name successfully save a VDI server info.
Information	10	5	User $Name successfully save a DLP server info.
Information	10	5	User $Name successfully saved changes to the client grouping method.
Information	10	5	User $Name successfully saved client grouping.
Information	10	5	User $Name successfully created domains for client grouping.
Information	10	5	User $Name successfully saved the schedule client grouping settings.
Information	10	5	User $Name successfully restored the spyware/grayware.
Information	10	5	User $Name successfully started grouping clients.
Information	10	5	User $Name successfully initiated Scan Now.
Information	10	5	User $Name successfully stopped Scan Now.
Information	10	5	User $Name successfully stopped Scan Now notification.
Information	10	5	User $Name successfully reset virus/malware statistics.
Information	10	5	User $Name successfully reset firewall policy violation statistics.
Information	10	5	User $Name successfully reset spyware/grayware statistics.
Information	10	5	User $Name successfully added a domain.
Information	10	5	User $Name successfully renamed a domain.
Information	10	5	User $Name successfully moved client(s).
Information	10	5	User $Name successfully removed a domain/client.
Information	10	5	User $Name successfully modified the Update Agent Settings.
Information	10	5	Apex Central modified policy: $policyName; Update Agent Settings
Information	10	5	and applied to all clients.
Information	10	5	User $Name successfully modified the Privileges and Other Settings.
Information	10	5	User $Name successfully modified the Privileges and Other Settings.
Information	10	5	Settings
Information	10	5	User $Name successfully exported the policy.

Information	10	5	User $Name successfully imported the policy.
Information	10	5	applied to clients.
Information	10	5	applied to fut
Information	10	5	User $Name successfully modified the Manual Scan Settings.
Information	10	5	Incorrect Apex Central policy setting: $policyName (%u)
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Real-time Scan Settings.
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Scheduled Scan Settings.
Information	10	5	to clients.
Information	10	5	to future domains.
Information	10	5	User $Name successfully modified the Scan Now Settings.
Information	10	5	and applied to clients.
Information	10	5	and applied to future domains.
Information	10	5	User $Name successfully modified the Behavior Monitoring Settings.
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Device Control Settings.
Information	10	5	and applied to clients.
Information	10	5	and applied to future domains.
Information	10	5	User $Name successfully modified the Data Loss Prevention Settings.
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Additional Service Settings.
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Web Reputation Settings.
Information	10	5	applied to clients.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Trusted Program List.
Information	10	5	User $Name successfully deleted client logs.
Information	10	5	User $Name successfully notified clients to send firewall logs.
Information	10	5	User $Name successfully modified log maintenance setting.
Information	10	5	for all clients.
Information	10	5	for future domains.
Information	10	5	User $Name successfully modified Spyware/Grayware Approved List.
Information	10	5	User $Name successfully modified Scan Methods for all clients.
Information	10	5	User $Name successfully modified Scan Methods for future domains.
Information	10	5	User $Name successfully modified Scan Methods.
Information	10	5	and applied to agents.
Information	10	5	and applied to future domains.
Information	10	5	User $Name successfully modified the Suspicious Connection Settings.
Information	10	5	applied to agents.

Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Sample Submission Settings.
Information	10	5	Settings and applied to agents.
Information	10	5	Settings and applied to future domains.
Information	10	5	Settings.
Information	10	5	applied to agents.
Information	10	5	applied to future domains.
Information	10	5	User $Name successfully modified the Endpoint Sensor Settings.
Information	10	5	User $Name successfully modified global client settings.
Information	10	5	installation
Information	10	5	computer \%s
Information	10	5	User $Name successfully stopped a remote installation task.
Information	10	5	User $Name successfully started a connection verification task.
Information	10	5	User $Name successfully modified scheduled verification.
Information	10	5	User $Name successfully added a firewall policy.
Information	10	5	User $Name successfully edited a firewall policy.
Information	10	5	User $Name successfully copied a firewall policy.
Information	10	5	User $Name successfully deleted the firewall policy(ies).
Information	10	5	User $Name successfully saved firewall exception template
Information	10	5	template.
Information	10	5	User $Name successfully assigned firewall profile to clients.
Information	10	5	User $Name successfully added a firewall profile.
Information	10	5	User $Name successfully edited a firewall profile.
Information	10	5	User $Name successfully deleted the firewall profile(s).
Information	10	5	User $Name successfully assigned reference server list to clients.
Information	10	5	User $Name successfully added a reference server.
Information	10	5	User $Name successfully edited a reference server.
Information	10	5	User $Name successfully deleted the reference server(s).
Information	10	5	User $Name successfully started outbreak prevention.
Information	10	5	User $Name successfully restored outbreak prevention settings.
Information	10	5	User $Name successfully limited/denied access to shared folders.
Information	10	5	User $Name successfully added outbreak prevention block ports.
Information	10	5	User $Name successfully edited outbreak prevention block ports.
Information	10	5	User $Name successfully deleted outbreak prevention block ports.
Information	10	5	User $Name successfully denied write access to files and folders.
Information	10	5	User $Name successfully saved computer location.
Information	10	5	User $Name successfully modified the scan source settings.
Information	10	5	User $Name successfully saved standard smart protection server list.
Information	10	5	User $Name successfully added standard smart protection server list.
Information	10	5	User $Name successfully edited standard smart protection server list.
Information	10	5	User $Name successfully deleted standard smart protection server list.
Information	10	5	server list.
Information	10	5	server list.
Information	10	5	User $Name successfully added custom smart protection server list.
Information	10	5	User $Name successfully edited custom smart protection server list.

Information	10	5	User $Name successfully deleted custom smart protection server list.
Information	10	5	list.
Information	10	5	list.
Information	10	5	User $Name successfully modified the settings of integrated server.
Information	10	5	User $Name triggered updating smart scan pattern.
Information	10	5	User $Name triggered updating pattern for local WCS.
Information	10	5	integrated server.
Information	10	5	integrated server..
Information	10	5	User $Name successfully add policy server.
Information	10	5	User $Name successfully delete policy server.
Information	10	5	User $Name successfully use CTA.
Information	10	5	User $Name successfully use CTA with supplicant.
Information	10	5	User $Name successfully apply agent settings.
Information	10	5	User $Name successfully import the client certificate.
Information	10	5	User $Name successfully save general settings.
Information	10	5	User $Name successfully save standard notifications.
Information	10	5	User $Name successfully save outbreak notifications.
Information	10	5	User $Name successfully save client notifications.
Information	10	5	User $Name successfully save proxy settings.
Information	10	5	User $Name successfully save agent connection settings.
Information	10	5	User $Name successfully save inactive clients.
Information	10	5	User $Name successfully save quarantine settings.
Information	10	5	User $Name successfully delete all quarantined file.
Information	10	5	User $Name successfully save smart protection network settings.
Information	10	5	User $Name successfully save web console settings.
Information	10	5	User $Name successfully save database backup settings.
Information	10	5	User $Name successfully database backup now.
Information	10	5	User $Name successfully register Apex Central.
Information	10	5	User $Name successfully unregister Apex Central.
Information	10	5	User $Name successfully update Apex Central.
Information	10	5	User $Name unable to register back to the old Apex Central.
Information	10	5	User $Name fails to process policy and there is runtime error.
Information	10	5	User $Name successfully get fileattr table.
Information	10	5	User $Name successfully update fileattr.
Information	10	5	User $Name successfully save fileattr.
Information	10	5	User $Name successfully deleted fileattr.
Information	10	5	User $Name successfully import fileattr.
Information	10	5	User $Name successfully export fileattr.
Information	10	5	User $Name successfully get express table.
Information	10	5	User $Name successfully update express.
Information	10	5	User $Name successfully save express.
Information	10	5	User $Name successfully deleted express.
Information	10	5	User $Name successfully import express.
Information	10	5	User $Name successfully export express.
Information	10	5	User $Name successfully get keyword table.

Information	10	5	User $Name successfully update keyword.
Information	10	5	User $Name successfully save keyword.
Information	10	5	User $Name successfully deleted keyword.
Information	10	5	User $Name successfully import keyword.
Information	10	5	User $Name successfully export keyword.
Information	10	5	User $Name successfully get template table.
Information	10	5	User $Name successfully update template.
Information	10	5	User $Name successfully save template.
Information	10	5	User $Name successfully deleted template.
Information	10	5	User $Name successfully import template.
Information	10	5	User $Name successfully export template.
Information	10	5	User $Name successfully exported DLP rules.
